	[illegible] Construction of granular sub base by providing 75mm graded material specified in table [illegible] layers and rolled under any prevailing surface irregularity to achieve the required density, complete as per specifications and drawings [illegible]	sqm	[illegible]	[illegible]	[illegible]
	[illegible] Providing, laying, spreading and compacting graded stone aggregate to suit the relevant specifications including pre-mixing the material with water at OMC in a mechanical mix plant/screening in a suitable layer, in three layers uniform layers with bond to sub-base/base course to well rammed surface and compacting with vibratory roller to achieve the desired density complete as per specifications and drawings at the Project Site.	Cum	[illegible]	[illegible]	[illegible]
	[illegible] Providing and applying two coat of bituminous surface dressing on the prepared surface of granular base including cleaning of the surface and applying primer coat @ 0.68 kg/sqm, sealing it with two layers of grit and binder complete as per specifications and drawings at the Project Site.	sqm	[illegible]	[illegible]	[illegible]
	[illegible] Each coat: Providing and applying tack coat with bitumen emulsion using an hand pressure distributor at the rate of 2.20 kg per sqm on the prepared bituminous/granular surface, coarse with horizontal drainage complete as per specifications and drawings at the Project Site.	Sqm	[illegible]	[illegible]	[illegible]
	[illegible] Providing and laying in the gaps in the existing wearing coat, hot mix asphalt type I-MP processing an optimum blend of 5.5 percent by weight of mix bitumen grade [illegible] aggregates of specified grades, premixed with bituminous binder at 4.5 to 5.5% by weight of mix and hot compacting the mix in a single layer with a hot vibratory roller to achieve the required grade, level and alignment, rolling will be carried out as per density and field control tests to achieve the desired degree of compaction as per specifications clause No. [illegible] complete in all respects as per specifications, [illegible] Specification No. 507 for Dense Bituminous Macadam (Grading II) work at the Project site as per the Engineer in charge of the work.
